

TECH DATA SHEET

FINISHING POLISH (1323)

DESCRIPTION

Presta® Finishing Polish is a cleaner/polish for use on both new and aged clear coat painted surfaces. This polish creates a high gloss and a swirl-free finish that will not wash away. Contains no waxes, fillers or silicones. Finishing Polish is easy-to-use and water-based, significantly reducing buffing and cleanup time when used in conjunction with Presta® Cutting Compound.

DIRECTIONS

Ensure surface is clean, cool and dry. Shake well before using. For best results, use with a Presta grey foam polishing pad. Apply a 1" (25mm) dab of Finishing Polish to a 2' x 2' (.6 m x .6 m) section and spread with the polishing pad before initiating rotation. Buff at speeds between 1000 - 1600 rpm. For best results, recommended buffing speed is 1400 rpm. Work the buffer slowly left to right and front to back, using light to medium surface pressure, slowly reducing pressure with subsequent passes. Do not buff to a dry surface. If buffing surface begins to dry, apply more product and continue to buff. Wipe surface with a clean microfiber cloth.

POLISH PART NUMBERS

Compound Size	Compound Part #	Case Qty.
32 oz. Finishing Polish	132332	12
1 gal. Finishing Polish	132301	4

FEATURES AND BENEFITS

Designed for light correction and final polish	<ul style="list-style-type: none">• Polishes and removes compound swirl marks
Water-based formula	<ul style="list-style-type: none">• Significantly reduces cleanup time
Low dusting formula	<ul style="list-style-type: none">• Keeps the rest of the vehicle clean while you work• Allows for faster clean up
Contains no waxes, fillers or silicones	<ul style="list-style-type: none">• 100% body shop safe• Mechanical correction, swirls will not reappear with washing or time
